LETCHER COUNTY AND WHITESBURG.

What is Happening in this Rich Coal Territory of Kentucky.

Whitesburg, Ky., Sept. 23.—A sad and unfortunate occurrence took place near East Jenkins, in this county, Thursday of last week. While the three small children of merchant John F. Justice were driving a wagon along a high embankment the vehicle overturned, going over a thirty-foot embankment. Little 5 year old Irene Justice was so badly injured that she died Friday. One of the other little children is said to have been badly hurt. The affair is deeply deplored. The remains of little Irene were taken to Pikeville, their former home, for interment.

The flag raising and dedication down at Blackey, the new town in this county, Sunday was largely attended and an interesting program was carried out. There was marching, speech making, a picnic and other things to entertain the big crowd. Several hundred people came on an excursion from Hazard. About 100 students of the Stuart Robinson College, the new mission school, joined in the march. A mammoth American flag was presented to the college by the Junior Order American Mechanics. The flag was hoisted upon the college building.

The coal business in the Jenkins-McRoberts-Fleming fields of this county is rapidly picking up, the past week's shipments being the largest in the history of the operations. Every available hand is being put into the mines, and increases will be made from time to time. Shipments are now rapidly going out from the new plants of Hammond and Hemphill, on Boone's Fork. The coal market was never better.

U. S. Marshal John M. Riddle and others left here for Jackson with four colored men who were taken there for trial in the U. S. Court on charges of peddling and bootlegging moonshine whiskey in Fleming and Jenkins, this county. A large number of witnesses accompanied them.

The funeral of the late Uncle Miles Webb, member of the old Webb family of this county, was preached Saturday and Sunday at Bottom Fork by the Elder Mosely and others of Floyd county. One of the largest crowds ever seen at a funeral meeting in that section was in attendance.

TUESDAY.

According to the official report issued from Paris on the progress of the battle along the Aisne in Northern France, there was little change in the situation of the right and left wings of the allied armies. In the center the Allies made "some slight progress" on the heights of the Meuse. In the Woerthe region a thick fog caused a suspension of hostilities.

A wireless official message from Berlin declares "reports concerning victorious advances of the enemy are untrue." It declares the reported fall of Przemyśl is an invention. The report states that the Austrian Government alleges Russian troops are using dum-dum bullets.

Mr. Ragland Writes Interesting Letter on This Subject.

Time it! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

PRES. WILSON ENDORSES BECKHAM AND CAMDEN.

President Woodrow Wilson considered the Maine election so important in its relation to National politics that at his personal request, Senator Olin

made a number of speeches in that State. Congressman Berkley, of Kentucky, was also on the stump in Maine and a number of other powerful friends of the administration lent their efforts to promoting the Democratic cause. The success of the Democratic ticket in Maine was most gratifying to President Wilson, as it was to Democrats everywhere. There is an old saying, "That as Maine goes, so goes the Union," and it is certain as any thing can be in politics, that as Maine has gone this year, so will the whole Union go this year—overwhelmingly Democratic.

President Wilson is as much interested in the election of two Democratic Senators in Kentucky this year as he was in the Maine election. At the meeting of the Democratic State Central and Executive Committees at Louisville recently, a telegram was received by Senator James from President Wilson, urging the election of Beckham and Camden to the Senate.

It is absolutely necessary that the Democratic vote in the Senate be strengthened and that the work of the administration be upheld. The loss of a Democratic Senator at this time would be disastrous to the Democratic party, and realizing the gravity of the national situation the President is taking a personal interest in the Kentucky campaign this fall.

He has said to his friends that he would be glad to make a speech in Kentucky for the ticket, but on account of the international complications, he has decided not to make any public addresses at this time. A little later, however, he will issue several statements, setting forth the work done by the Democratic administration and appealing to the people of the whole country, to support him and his party in the patriotic work they are performing.

Governor Beckham and Senator Camden, stand shoulder to shoulder with the President on all public questions. Senator James, has done a giant's work in fighting the President's battles in the Senate and has had excellent support from Senator Camden. When Senator Camden's term expires, Governor Beckham will be ready to cooperate with the President in solving the great problems that now confront the party and the nation.

Every Democrat in Kentucky should go to the polls in November and cast his vote for Governor Beckham and Senator Camden and thus endorse that great statesman and patriot, Woodrow Wilson.

NO WAGE CUT ON THE NORFOLK & WESTERN.

Charleston, W. Va., Sept. 22.—Coal operators along the Norfolk & Western Railway and the employees along that railroad are denouncing the story, recently circulated, that in that field there had been a cut of wages amounting to ten cents a car, or nearly 35 per cent.

When this information was given out at the Huntington headquarters of the United Mine Workers the operators along the Norfolk & Western Railway were surprised. None of them had heard of any such cut. An investigation was begun. Inquiries were made throughout the Pocahontas field and no operation was discovered where there had been a reduction.

L. E. Tierney, of Powhatan, W. Va., chairman of the executive committee of the Pocahontas Coal Operators' Association, reports that the shipments out of the Pocahontas field are more than a million tons ahead of the shipments for the first eight months of 1913. This is confirmed by the monthly statements of T. D. Hobart, the coal agent of the Norfolk & Western.

As a matter of fact, there has been no reduction of wages. There is no discontent among the miners in the smokeless fields of West Virginia.

PARDONED BY GOVERNOR.

Henry Howard, of Frankfort, after five years of industry and upright living on parole, was given a pardon by Gov. McCreary. Howard was sent up for life from Elliott county for killing Lee Tolliver in 1902. He was paroled in 1909. The evidence against him was circumstantial and new facts in Howard's favor developed after the trial. The Circuit Judge and Commonwealth attorney of that district joined in the petition for executive clemency. Howard is married and by his industry has acquired a home since his parole. He is employed by Guy Barrett.

The latest report from the big war
at the German lines are weakened
and retreat has started. The great-
est battle of the war and probably of
all history has been raging for twenty
days.

The Philadelphia Public Ledger, the
influential Republican paper in Phila-
delphia, repudiates the candidacy of
Boies Penrose for re-election to the
Senate, and has declared in favor of
the election of Hon. A. Mitchell
Palmer, the Democratic nominee.

Congress has decided to appropriate
twenty millions for rivers and harbors.
The entire sum is to be placed at the
disposal of the army engineers to use
where they think most necessary.
Work already under way will probably
cost all the money, as there is not more
than enough to meet the demands in
that direction.

Announcement that a delegation of
German colonists from China is on the
way to this country to make representa-
tions to the Government concerning
Japan's intentions in joining in the
war serves to call attention anew to
the peculiar position in which our
nation finds itself. Our favor is courted
on all sides.—New York Press.

The Democrats of the Tenth district
should arouse themselves to the op-
portunity they now have to elect a
Congressman. Hon. F. T. Hatcher
would serve the district most satis-
factorily. He is an administration
man and could get the people of the
district want. Mr. Langley is
what out of date now. He does not
stand very high with the Demo-
cratic administration at Washington.

Congressman W. J. Fields is sticking
right to the job at Washington, as he
should do, and must depend upon the
Democrats to go to the polls and re-
elect him. There are a number of im-
portant matters on hand at Washing-
ton and Mr. Fields considers it his
imperative duty to stay there and do
his part. This is the right spirit and
the Democrats at home will not over-
look him.

Two People's President.

A step in liberating the busi-
ness of the United States was taken in
the passage of the Clayton anti-trust
bill. Woodrow Wilson is no blather-
skite. He is no vain boaster. With
are vision and splendid tact he is
guiding this country into straight
paths, along safe anchorages and into
liberated business and emancipated
industry. He is a people's President.
—Oregon Daily Journal (Ind.).

Stays Where Needed.

Everywhere we observe a hearty ap-
preciation of the wisdom and sense of
duty in the President who leaves to
others the task of justifying his Ad-
ministration to the people, and con-
fines himself to his official duties. To
a man who speaks as effectively as he
does the platform presents great tempta-
tions, but the country likes Mr. Wil-
son all the better for resisting the
temptations and staying where he is
most needed.—Philadelphia Rec-

Mason and Bourbon counties are on
the dry list for the first time in their
history. All saloons must close within
sixty days. Maysville has long been a
strong whiskey center. Her list of de-
bauched and ruined young men is said
to be the largest of any city in the
State. She has paid an awful price in
wrecked manhood for the privilege of
being a liquor stronghold.

The Record Counts.

"The record," President Wilson says
in his letter declining to take part in
the campaign, "speaks for itself."
It does. In comparison with what
the record says, the promises of poli-
ticians, and their explanations, are all
empty words. The record is what
counts. Yet that is a fact which poli-
ticians never will comprehend. They
go on, making promises and breaking
them, in the same old way. And they
expect to be able to smooth over their
deficiencies with smooth words, and
get away with it. But the people are
"on" more and more. The record is
what counts.—Kansas City Star (Bull
Moose).

BETTER ROAD BUILDING.

It is encouraging to those who want
to see better roads in Kentucky to note
that the number of applicants taking
the examination at Frankfort for the
position of county road engineer is
larger than ever before.

Fifty of those who underwent the
examination, it is stated, had previous-
ly taken a course in scientific road
building at the State University. There
are indications of a growing interest
all over the State in the construction
of better roads. Good engineering is
now generally recognized as essential
to good road building.

Many of the roads in Kentucky are
poorly located. Much of the work that
is done in the way of road repair is
not efficient. The engineer who gives
good service to his county will more
than earn his salary, and the county
will save money by employing him.
With the services of an engineer avail-
able at all times, the highways can
receive systematic attention, and that,
above all things, is what they need. In
the opening of new roads and the re-
pairing and relocation of old ones it is
important that the county should have
the advice and co-operation of a com-
petent engineer.

The counties also should avail them-
selves of the assistance which can be
freely had from the State Good Roads
Department at Frankfort. In cases
where extensive improvements are to
be made, bridges built, contracts to be
let, or problems of various kinds to be
solved, the department should be con-
sulted and its aid invoked. Increase
in knowledge of road construction
should bring better roads and should
cause less money to be wasted in fu-
ture on inefficient work.—Courier-Journal.

INDEMNITIES OF RECENT WARS.

When Erasmus described war as
"the malady of Princes" he was not so
accurate as would at first appear. It
may be the Princes who are ill, but it
is the people who suffer the conse-
quences and foot the bills. The cost
of the present war has been estimated
many times, but when it is over the
losers will face a further stupendous
outlay in the indemnities of money and
land which will be exacted from them.

At the end of the Franco-Prussian
war, in 1871, Bismarck demanded an in-
demnities which staggered the world.
Nothing of the sort had been dreamed
of before. Not only did France lose
Alsace and Lorraine, two of her best
provinces, but she had to pay in cash
the stupendous sum of 5,000,000,000
francs, or \$1,000,000,000. This vast
sum of money was obtained only by
the loyalty of the French people, who
in thousands of cases gave up their
jewelry and silverware to help make
up the amount. The lost territory and
hardships caused by the huge levy
have never been forgotten, and the
defeat of the Kaiser will mean that
France will ask for a return of both.
Should she ask for interest on the
\$1,000,000,000 for 44 years it would
make an almost impossible sum.

The exacting of a tribute in money
or land, or both, from a defeated enemy
is as old as war itself, and there are
a number of interesting examples in re-
cent times. When the American col-
onies achieved their independence they
won the ownership of their own terri-
tory as the result of military success.
The biggest indemnity ever exacted
by the United States was from Mexico,
in 1847. The decisive victory won by
the United States resulted in Mexico
giving up all claims to territory north
of the Rio Grande.

No cash indemnity was obtained
from Spain after the Spanish-American
War, but besides the freedom of
Cuba this country obtained Porto Rico
and Guam outright and the right to
buy the Philippine Islands for \$20,000,-
000.

"UNCLE HUGH" BOYD.

On Sept. 19th "Uncle Hugh" Boyd, a
pioneer resident of Lawrence county,
died at his home on Nats Creek just a
few miles east of Graves Shoals. At
the ripe old age of 88 years he was
"Uncle Hugh" was loved by all who
knew him. Not an enemy had he any-
where. His wife preceded him to the
great beyond eight years ago. He leave
six sons—Cass, of Whitehouse; George,
of Henrietta; Reubin, Allen and Henry,
of Graves Shoals; and Alfred, of Stan-
dard, W. Va. Also one daughter, Mrs.
Mahulda Murray, of Huntington, W.
Va.

The funeral was very simple, he
having made complete arrangements for
same in detail before his death. The
services consisted in song and
prayer and Scripture reading by the
Rev. Roscoe Murray, of Huntington,
who is a grandson of the deceased.
Then the Revs. A. Preston, of Graves
Shoals, and Dr. J. R. Fairchild, of Inez,
delivered short but very impressive
sermons. All this being the request
of the deceased. The text, Rev. 22-14,
had also been selected by him prior to
his death.

"Uncle Hugh" is gone, but long will
the memory of him live in the hearts
and minds of those who knew him. He
had been a faithful follower of the
Lord for fifty-nine years, being a
charter member of the Bethlehem Epis-
tolic Church at Chestnut, Ky., of which
church he was a member when he died.

H. C. Sullivan was in Elliott county
the first of the week in the interest of
his candidacy.

DR. WROTEN SENDS UP
AN INTERESTING LETTER.

I am sighing for my summer clothes.
For a week past the mercury has been
up and about, steadily rising, until to-
day it is nearly 90, and the air filled
with moisture.

At nightfall the Jersey mosquitoes
come across the bay in swarms, eager
to attack the newcomer. That's me.
Besides being numerous they are large.
Yesterday I stood in front of one of
the big public schools of this city at
the noon hour and interestingly watch-
ed the children pour out of the build-
ing. I took pains to find out how many
there were. I knew there were very
many, but was astonished when I
learned that there were over 5000. Just
think of it—more than five thousand,
in fact, nearly six thousand children
in one building. It was a beautiful
sight. They were from the kindergar-
ten to the eighth grade. They were
mostly girls, and nearly every one of
these was dressed in white. In the
middle of the street stood a big police-
man to keep wagons and automobiles
out of the way until the last child was
led out and across the street if its way
led in that direction. I said to him,
waving my hand toward the chatter-
ing crowd, "Officer, that's one crop that
never fails," and he was ungalant
enough to say, "It does, sir, in Brook-
lyn—the women prefer dogs." It
seemed to me that I saw a big school-
house every three or four blocks, yet
such is the number of children that
40,000 of them can attend only part of
the time.

My mention of wagons and automob-
iles reminds me of the congested con-
dition of the down-town streets, and it
looks to me like it was nearly all
down town. Take Broadway and
Fifth Avenue, for instance. In spite of
the traffic officers blockades during the
rush hours are frequent, when for
perhaps half an hour or more it is
impossible for a vehicle of any sort to
move or a pedestrian to cross the
street. It is no wonder that accidents
occur, the wonder is that more do not
happen. Every owner of an automob-
ile has an ambition to see what sort
of peace disturber he can provide for
his car. The law compels him to have
a horn, which is to be used to warn
people out of the way of his car, and
each owner seeks to outdo the rest in
quaver sounds. The machine which
has had the distinguished honor of
toting me about since I came has an
electric horn which some how had a
familiar ring. I finally figured it out.
Take the bark that Ben Thomas' poodle
used to emit some twenty years ago,
magnify it 500 diameters and you have
it.

Before coming to New York this
time I entertained a sneaking sort of
belief that Charles Becker, the former
police captain under sentence of death
for complicity in the death of the
gangster Rosenthal, might be innocent.
This was probably due to my sympathy
for his wife and children. I haven't
any more. Like a certain Kentucky
conspirator in another tragedy, Becker
is the king bee in the whole dreadful
business. If Governor Glynn does not
interfere he is sure of a seat in the
electric chair. Since the other four
were shocked to death the gangsters
of New York have not been quite so
busy, and the sudden taking off of the
former "cop" captain will have a most
salutary effect.

Do you know what a "gangster" is.
He is a tough who can be hired to do
anything and to "do" anybody. He
had his beginning as a loafing truant
from school, where he beat the smaller
boys with his fists, then took to stay-
ing out at night, not forgetting to
smoke cigarettes and to cuss. When he
got this far the rest was easy. Shut
your eyes, and see if one or more em-
bryo gangsters do not pass before your
mental vision.

I have been to New York so often
that there is not much new for me to
see. Besides, I am hardly as spry as I
was 25 years ago, so that I am content
to take my holiday restfully. In a day
or two we go to Philadelphia, the City
of Brotherly Love, because, as our
friend Prof. Kennan would tell us, his
phil is Greek for love and adelphi,
also Greek, means brothers. This limps
a little Professor, but you know what
I am trying to tell.
Philadelphia is quite a settlement,
however much these New York chaps
affect to think little of it. It is a
beautiful city, and the people don't
pitch their voices in as high a key as
the Manhattanites use. But really, if
somebody should carry off the Liberty
Bell, and the city should plow up the
grave of "Benjamin Franklin and De-
borah His Wife" I don't know what
the citizens would have to show to
the visitor.

KIT CARSON'S 3-RING

WILD WEST CIRCUS.

A Few Facts About the Peer of All
Amusement Enterprises.

On Saturday, October 10, Kit Car-
son's 3-Ring Wild West Circus will
exhibit at Louisville afternoon and night.
This is the largest amusement enter-
prise of its character in the world.
Solid trains of their own double-length
cars are required for the transporta-
tion of this colossal attraction. Never
before have so many features been
combined under one management. The
Aeroplane for instance is but one of
the strange sights to be seen with this
exhibition. Not a model but a Curtis-
Farnum Aeroplane furnished by the
Chicago Aeroplane Manufacturing Co.,
and guaranteed to give flights daily.
It will circle the city and alight at the
show grounds for the public's inspec-
tion.

A Menagerie of trained wild animals
is also an innovation with a wild west
show. Elephants, Camels, Buffalo and
on down to the smaller species of bi-
pedes and quadrupeds. A two mile
street pageant glittering with gold and
silver, will delight the eye and the ex-
quisite music of the three big bands
will please the lovers of harmony.

Coming as we do from the largest
ranch in the world, we carry nothing
but the very best of riders and ropers
and guarantee to ride any horse or
mule free of charge if brought to the
show grounds and offer a reward if
we fail. The Cossacks with the show
were selected from the Czar's cavalry
in Russia and are without doubt the
finest horsemen in the world. Then
there are the Rough Riders from the
plains of South America, Vaqueiros
from Old Mexico, champion lady riders

"Dreams"—the expression of quite a few women who have already
inspected our suit showing this season.

A woman's fancy can roam far and wide among these new fall
suits whose becomingness assures their personal popularity with all
who are particular.

"Dreams" In Suits

The variety of styles, materials and colors is large, really the largest
assortment we have ever shown and in all the lot there is not a common-
place style to be seen.

Another thing—every one of these fresh, distinctive, good-looking suits
are from famous makers. Many of them exact models from these style
artists: Jenny, Bernard, Bechoff-David, La Borde and Lauvin, so if you are
the least concerned in seeing and wearing a suit of delightful fashion visit
this section of our store—we are expecting you.

Just a word about the prices, ranging as they do from

\$15.00 to \$65.00

gives us an excellent opportunity of supplying every demand. Our display
from \$20.00 to \$35.00 is especially large and attractive and we are very desir-
ous of having you see them.

NATURE'S WARNING.

Louisville People Must Recognize and
Heed It.

Kidney ills come mysteriously.
But nature generally warns you.
Notice the kidney secretions.
See if the color is unhealthy—
If there are settlements and sediment,
Passages frequent, scanty, painful.
It's time to fear serious kidney trou-
ble.
It's time to use Doan's Kidney Pills.
Doan's have done great work in
Louisville.
Mrs. T. V. Heston, Louisville, says:
"One of my family suffered terribly
from kidney disease. The kidney ac-
tion was too frequent and caused great
annoyance. Finally, I used Doan's
Kidney Pills. They gave prompt relief
and continued use brought a cure and
has proven permanent. I willingly
confirm my former public endorsement
of Doan's Kidney Pills."
Price, 50c, at all dealers. Don't
simply ask for a kidney remedy—get

MOUNTAIN BOYS WIN
IN WESTERN ELECTIONS.

In the August primaries in Arizona,
California and Oklahoma, three former
Kentucky boys showed that a Kentucky
mountaineer is a proposition to reckon
with when it comes to a scramble for
a big juicy plum. Vernon L. Vaughan,
former County Clerk of Estill, was re-
nominated for County Recorder at
Phoenix, Ariz.; L. A. West, former
County Attorney of Estill, was re-
nominated for District Attorney at
Santa Ana, Cal., and C. W. Friend, also
former County Attorney of Estill, was
nominated for County Attorney at Te-
cumseh, Okla. Messrs. Vaughan and
Friend are Democrats, and Mr. West
is a Republican, and in each case the
nomination was won by an overwhelm-
ing majority and is equivalent to an
election. Congratulations, boys.—Es-
till Tribune (Irvine).

TREATMENT OF CATTLE
FOR "PINK EYE."

The Experiment Station has been re-
peatedly called upon to answer in-
quiries concerning an outbreak of con-
tagious ophthalmia which is at present
prevalent over the entire State of
Kentucky. This condition is sometimes
known as "pink eye," and attacks in
rapid succession a large portion of the
herd. It is distinctly a contagious dis-
ease and may originate by the pur-
chase of a new animal which is already
affected, and from that animal it may
be spread to all the remaining cattle
in the herd.

Symptoms. The condition is usually
first noticed by a profuse discharge of
tears from both eyes, which constantly
keeps both sides of the face moist. The
eyelids are swollen, painful to pres-
sure, and invariably closed, especially
so in intense sunlight. These symp-
toms are usually accompanied by a
slight elevation in temperature, loss of
appetite and a diminution in the flow
of milk. If the condition is left to go
untreated the discharge from the eyes
assumes a purulent form, usually ac-
companied by a slight cloudiness of
the cornea.

Treatment. Affected animals should
be isolated in a cool, dark portion of
the barn and given from one to one and
one-half pounds Glauber's salts as a
drench, and one tablespoonful potas-
sium nitrate added to each six gallons
of drinking water. In addition, the eye
symptoms are best treated by washing
the eyes out twice each day with a four
per cent. solution of boric acid, but
this may be substituted by a 1 to 100
solution of silver nitrate once a day.
In severe cases where the lesions of the
cornea are present this latter treat-
ment is to be preferred.

Prevention. Whenever this condition
appears in the herd the healthy ani-
mals should be immediately removed
to a new pasture, given a laxative diet
and provided with fresh drinking
water.

markable for the church and the town.
The class is called "Robinson's Men."

Use "Gets-It," Corns Shivel, Vanish!

It's the New Way, and You'll Forget You Ever Had Corns.

No Corns to Bump; No Pain, If You Use "GETS-IT."

never fails. That's why millions of people are using "GETS-IT" today and throwing away their fussy plasters, sticky tape, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and choke it into pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, scissors or files, with their blood-poison dangers. Try "GETS-IT" for that corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

"GETS-IT" is sold in Louisville by LOUISA DRUG COMPANY and J. H. REYNOLDS.

MOTHER! THE CHILD

IS COSTIVE, BILIOUS.

Look, Mother! If tongue is coated give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

SAYS SULPHUR WILL

DRIVE ECZEMA FROM

THE SKIN AT ONCE.

Use like cold cream to instantly stop itching and clear the skin.

Sulphur, says a renowned dermatologist, just common bold-sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of bold-sulphur cream and apply it to the irritated parts the same as you would any cold cream.

For many years common bold-sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasite-destroying property. It is not only parasiticidal, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subdue the angry itching and irritation and heal the Eczema right up and it is often again appears on the skin.

The above attraction, which will exhibit at Louisa on Saturday, October 10th, afternoon and night, is without doubt the largest and best amusement enterprise of its kind extant. The prescription which Dr. R. V. Pierce uses most successfully—in diseases of women—which has stood the test of nearly half a century—is

Dr. Pierce's Favorite Prescription

Take this in liquid or tablet form as a tonic and regulator!

Mrs. Kate D. Richardson, of Beazley, Essex Co., Va., says, "I esteem it a pleasure to testify to the wonderful curative qualities of Dr. Pierce's Favorite Prescription. For some years I suffered greatly with weakness peculiar to my sex. I was treated by several physicians but gradually grew worse. One of my friends told me of the good results of your 'Favorite Prescription.' I went to the drug store and got a bottle, and after taking it with the 'Pleasant Pellets,' I commenced to get better. I never knew what happiness was, for I was always sick and complaining and made others as ill as myself unhappy. So you see what a debt I owe you!"

HOW FARM GIRLS CAN MAKE THEIR PIN MONEY.

A lady in Richmond, Va., has made a national reputation putting up and selling "pin-money pickles." She began a few years ago in a very modest way, but now her products are so popular that they can be found nearly everywhere in the United States. Another woman, in Washington, D. C., has built up a business making chowchow, for which she gets \$3 a gallon.

These are only samples of what hundreds of young women have done to earn pin money by putting up canned goods at home. People are continually demanding a better quality of canned goods and are willing to pay a better price for them. The farmer's daughter who desires to earn pin money may avail herself of this demand and with care and perseverance learn to put up canned goods that she may sell at a profit. Those who are interested in such a project may obtain detailed instructions on canning in Farmers' Bulletin 521 of the United States Department of Agriculture, which will be sent free of charge to the applicant.

The bulletin, while encouraging the young woman in her efforts to make a business proposition of putting up fruits and vegetables, cautions against over enthusiasm. It advises that the beginner experiment with a few cans before going too heavily into the project. If the first cans keep well, she may be encouraged to proceed. If she meets with a few failures, perhaps she has overlooked some important detail outlined in the department's bulletin. It is only through failures that one gets good experience, and with a little practice and care in following the directions any farmer's daughter should be able to put up a satisfactory can of fruit or vegetables.

When a young woman has succeeded in putting up a product satisfactory for home use, she may well look around for a market outside the home. The girl who starts out with confidence in herself will be more likely to find a good market than one who is diffident.

The girl with experience in canning knows the products with which she has the most success, and should endeavor to sell only those in which she excels. It is always best to specialize and work up a reputation for some particular kind of goods, as did the women already mentioned. One girl may make a feature of catchup, another may find her best product is pickles, while another may put up a specially attractive can of peppers, cauliflower, peaches, apples, or tomatoes.

People of means are most likely to want "home-canned" products, and these are the ones to see. Many housewives living in the cities who leave home for the country during the summer months will gladly give the farmer's daughter an order to can enough tomatoes to last them all winter. It is best to take orders ahead as far as possible.

The young woman who starts out to sell products will, of course, dress neatly and take samples of her products put up in an attractive form. Glass jars will show products much better than tins, but if tins are found to be less expensive, they may be used for all except the show products.

The managers of the best hotels and restaurants in the neighborhood, the stewards of social clubs in the cities, and the managers of railroad dining cars, and the products of the girl who does her canning at home. These products are likely to show individual care and to be prepared neatly of good materials, and on the shelves of a retail store are likely to attract attention from the best customers.

If a young woman knows by experience that her products are first class, she need not hesitate to put a good price on them. Home-canned goods, canned by experienced people, are worth more than ordinary goods, and one need not compete with the other. "Fancy goods" are rarely found upon bargain counters. Even if the first samples of home canning are not such as may be readily sold, they may be used at home and from her experience the farmer's daughter may do better the following season. When she actually succeeds in getting something better than the ordinary she should be able to sell it. She may well ask her friends to recommend her to good trade. The young woman sincerely determined to make a success of canning as a business proposition with perseverance and care in following instructions should be sure of some measure of success.—Lexington Leader.

TURKEY CROP IN BLUEGRASS REGION REPORTED LARGE.

The turkey crop of the bluegrass region is reported to be the largest and best for many years on account not only of the dry weather of the early summer, but because the farmers have found turkeys to pay so well that more persons have taken to raising them than ever before. Jesse T. Wade, a produce dealer of Lexington, has been in the county on different occasions during the last few weeks making contracts for his fall supply of turkeys, and says the prospects this year for a banner crop are better than it has been at any time during the last fourteen years.

The crashers upon which turkey raisers depend for the thriving of their flocks in the early fall are reported numerous, and the turkeys are said to have never done better at this season of the year. Lexington consumes about 25,000 turkeys, it is estimated, and about an equal number are shipped from there to points in the North and East.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR.

Make it thick, glossy, wavy, luxuriant and remove all dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

ASHLAND PEOPLE SAID TO BE HEIRS TO LARGE FORTUNE.

After coming into possession of her inheritance, Mrs. W. Thumma, of 613 Fourth street, Ashland, will be worth over a million dollars. It was by mere accident that she discovered that she was an heir to a large West Virginia estate, which was once the property of her father, Johnson Brewer. The estate is near Logan, W. Va., and is in several different tracts, says the Portsmouth Times.

Several weeks ago while on a visit to relatives at Louisa, Ky., Mrs. Thumma learned that she had relatives in Logan, W. Va. An old resident of Louisa told her that her people in Logan were anxious to see her, and that they had something to impart to her that was very important. Mrs. Thumma left at once for Logan, not suspecting the news that she was a wealthy heir. Judge Wilkinson and Sheriff Don Chaffins, of Logan, are her cousins, but she did not know it until she went to Logan and began inquiring for certain parties. The Brewers are well known in that part of the country. It was through her relatives there that she was informed of the gladsome news which was hardly creditable, at first. She thought it too good to be true. Mrs. Thumma was taken to the old farm, where on the hillside she found the graves of her brother and sister, the large stones at the head of the graves being placed there by her mother. The lands are all underlaid with valuable veins of coal, and oil wells are found in several places. The valuable timber on the land would make one rich without the other two products. Lawyer J. B. Ellison was given the case to look up. After two weeks of digging into old records, he found five different tracts of land owned by Johnson Brewer, located as follows: 24 acres west of Pigeon Creek; 3 acres at head of Pounding Mill Branch; 43 acres west of Island Creek; 15 acres west of Island Creek; 500 acres owned by Brewer and Lawson, situated west of Marrowbone; 4500 acres owned by Brewer and Lawson, situated between Pigeon and Sandy Creeks.

The land was homesteaded land, taken over by Johnson Brewer before the state was divided. Since the dividing of the state, the majority of the real estate is in West Virginia. During the Civil War a small band of soldiers burned the Brewer home, and Mr. Brewer was forced to flee from his land to Ohio. He settled then in Gallipolis, where he died when Mrs. Thumma was only 14 years old. The mother died shortly after. The eight children left on their own resources, did not know anything of the land in the mountains.

Besides Mrs. Thumma there are seven other heirs: Mrs. T. W. Ward, of Ashland, Ky.; J. C. Brewer, Michigan; Capt. James Brewer, Ashland, Ky.; W. A. Brewer, Ironton, and L. J. Brewer, Green Bottom, W. Va. It is feared that the last named will not share in the money as he lives in the state. The property can be claimed by the right of being honor heirs who live out of the state. Attorney Ellison has engaged two other men to work with him and they are sure they can clear the case up in a short time. The few people who knew little of the owners of the land, thought it had been sold for taxes.—Ashland Independent.

THE PRESIDENT'S TRIUMPH.

Any policy is entitled to be judged by its results; and by that test the President's Mexican policy is splendidly vindicated. A vagrant war item records that one Victoriano Huerta is marooned in London, presumably awaiting a chance to get into Spain. Little noticed amid bigger distractions, the Constitutionalists took peaceful possession of the Mexican capital.

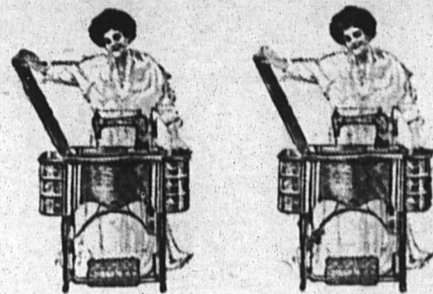

The future, perhaps, is anybody's guess; but Huerta is out, and a government that has some show to restore settled conditions is in, and only a few American lives have been lost. The President and the Secretary of State were rather lonesome in adhering to the policy that has issued in this bloodless fashion; but when they look across at Europe they are entitled to deep satisfaction.

This country is horrified by the European slaughter. Everybody is horrified by war after it begins; yet only a few months ago we heard a great deal about the merits of taking a strong stand with Mexico, asserting our national dignity and the rest of the rigmorale that meant rows of American youths dead or wounded in a trivial cause.—Saturday Evening Post.

Your Misery in Your Mind.

It is the habit of men and of women to decry the present and extol the past. Things were never quite so bad with them before. They never before had such sufficient cause for being ill-tempered, morose and despondent. They never before met with so many and such sore disappointments; they never before were deprived of so many things they wanted, or prevented from doing so many things they desired to. The wife or the husband, as the case may be, was never before so neglectful of their welfare and so indifferent to their wishes and their peace of mind and happiness, and they sulk and pine and brood and grumble.

The fact is, that in regard to the happiness you enjoy or the misery you undergo, the majority of men and women are like the spendthrift, who each day squanders every penny he can get, but is going to become saving and commence getting rich at some future time. So with the majority of men and women, in relation to their emotions. They have so much to worry, vex and torment them today that they will be just as miserable as they can, but are fully resolved to be happy at some future time. With them experience does not lead them to reflect that, on the average, one day is much like another, and that if they are ever to be happy, they had best be happy today. Neither do they ever seem to discover that misery or contentment is almost entirely a matter of temperament as you might say, of opinion. The discontented and repining always assign this or that as the cause of their discomfort, or the lack of this thing or that thing as the source of their tribulation and wretchedness. And the fact that a neighbor possessing those very things seems even more discontented and fearful than they, never seems to suggest to them that their misery is all in their mind.

The man of very limited income can scarce meet the expenses of his family and hear their fretful complaints because they are not better dressed, or more expensively housed, and he feels dejected, discouraged, and thinks the addition of a few hundreds to his income would remove all his troubles; and yet, next door, or on the next block is another man with five times his income in precisely his fix and in the same state of mind.

In choosing a vocation, do not ask yourself how you can make the most money or gain the most notoriety, but choose the work that will call out all your powers and develop your manhood into the greatest strength and symmetry. Not money, not notoriety, not fame even, but power in what you want. Manhood is greater than wealth, greater than fame. Character is greater than any career. Each faculty must be educated and any deficiency in its training will appear in what you do. The hand must be educated to be graceful, steady and strong. The eye must be educated to be alert, discriminating, and microscopic. The heart must be educated to be tender, sympathetic and true. The memory must be drilled for years in accuracy, retention, and comprehensiveness. The world does not demand that you be a lawyer, minister, doctor, farmer, scientist or mechanic; it does not dictate what you shall do but it does require you undertake. If you are a master in

your line, the world will applaud you and all doors will fly open to you. But it condemns all blotches, abortion and failures.

Can there be a being so vile and odious, so dead to nature's impulses, who in return for constant care and such unvarying kindness, can willingly or heedlessly wound the heart that cherished him, and forsake the lonely one who nursed and sheltered him, who can madly sever the sweetest bonds of human union and bring down the gray hairs of his parents in sorrow to the grave, who can leave them in their old age to solitude and poverty, while he wanders in the pride of undeserved prosperity?

A normal boy is mentally active. He must ask questions. His mind needs food as much as his body. Give him noble books to read. Fill his mind with the great thoughts of the large-minded men of all ages, and you give him an inheritance of more value than money. Teach your boy to read good books by buying them for him. History, science, the best fiction, poetry, essays—a boy need never be lonely when he may have as friends the entertaining and large-hearted men of all nations and of all time.

'Tis said if you improve not today you will grow worse tomorrow.

If you would have a clean hearted boy you must teach him to keep his body clean and vigorous. Give him wholesome food and conveniences for bathing. The body is the temple of the spirit. A boy's clothes may be of the roughest, but if he brushes his teeth and takes a cold plunge of a morning he is a gentleman and he will not find his mouth stained by foul words nor his body capable of evil deeds.

You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean, stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

Now let me sight you to the fact that I have a treatment that will positively cure Catarh. Following is a testimonial that ought to convince you.

Dear Sir:—I had the Catarh six years and used two \$15.00 treatments, but they only relieved me temporarily. I learned of your remedy and I only purchased a small supply and it cured me sound and well. It was in the year of 1908 and at this present writing I stand ready to make oath that if I have the Catarh of the Nasal and Head now I do not know it. Your remedy certainly must destroy every germ.

LETCHER COUNTY

AND WHITESBURG.

What is Happening in this Rich Coal Territory of Kentucky.

Body Riddled With Bullets.

(Whitesburg, Ky., Sept. 30.—Reliable information received last night from Pound Gap, on the Kentucky-Virginia border, is to the effect that John Bruner, a young farmer of the Colly Creek section, near here, was found dead, his body riddled with bullets, near the roadside. Bruner is said to have left home a few days ago presumably on the hunt of moonshine whiskey and that he is said to have gone to the Virginia side of the mountains to get it. There is a robbery theory going the rounds, as that is the only reasonable theory. He has a wife and two small children at Colly.

Postoffice and Store Burned.

Whitesburg, Ky., Sept. 30.—Telephone information received here from Polly in this county is that J. N. Clay's big country store, together with the postoffice was burned there Monday night entailing a total loss. Clay's loss is \$5,000, besides the government's loss, which is said to be about \$300. Clay carried about \$2,500 insurance on his building and stock. Rats are said to have fired the building, causing the loss. He will rebuild.

Election for Voting Road Bonds.

Whitesburg, Ky., Sept. 30.—Sheriff C. H. Back, of this county, is this week posting notices in all sections of the county calling the attention of the voters to the election for voting road bonds in November for the purpose of building roads in Letcher county. There is much interest manifested in each of the nine voting precincts in Letcher county and it is believed the issue will carry largely. There are good roads enthusiasts in all parts of the county talking up the matter.

Corn Crop Unusually Good.

Whitesburg, Ky., Sept. 30.—Farmers here this week from all sections of Letcher county say the corn crop is unusually good this year—much better than was expected. It was thought in the beginning that the drought greatly injured the corn crop.

Junior Order to Build.

Whitesburg, Ky., Sept. 30.—An effort is being made by the Junior Order to build a splendid lodge hall in East Whitesburg, near the new college soon to go up. A large part of the money necessary has already been subscribed.

Hookworm Campaign.

Whitesburg, Ky., Sept. 30.—Dr. I. A. Shirley, of Winchester, is starting his hookworm campaign in this county, having spoken to a large and interested crowd at Blackey, the new town in the southern part of the county, yesterday. Dr. Shirley will speak in every important section of the county. It is said that hookworm exists in a large number of mountain counties.

Gas Still Spouting.

Whitesburg, Ky., Sept. 30.—The natural gas well discovered by Stamper's well drillers on the lot of Kelley Fields days ago, is still spouting an unusually large flow of gas. Mr. Field, the owner of the property, has been offered some large sums for his holding, enough, it is said, to make him rich, but he refuses to accept.

Small Boy Shot.

Whitesburg, Ky., Sept. 28.—Burse Walker, a small boy, of Walkertown, Perry county, shot and seriously injured Curt Messer, another small boy, the weapon used being an old-fashioned shotgun. The Walker boy was arrested and taken to jail. The boys quarreled over a trivial matter.

Perry Circuit Court.

Whitesburg, Ky., Sept. 28.—Judge L. D. Lewis, of Hyden, closed an eight-week term of the Perry Circuit Court at Hazard, four weeks of regular term and four weeks of special term, in which hundreds of cases were disposed of, and the docket cleared of congested business. There were a number sent to the penitentiary, while a large number of civil and penal misdemeanors, whiskey and pistol totting cases were disposed of. It was the longest term of the Circuit Court in the history of Perry county.

L. & N. to Build Connection.

Whitesburg, Ky., Sept. 30.—It is said here that the Louisville & Nashville will shortly build a connection of the L. & N. between Haymond, the new industrial city on Potter's Fork, through Pound Gap to Jenkins, a distance of about three miles, thus giving the L. & N. a connection via the Baltimore & Ohio and C. & O. with the markets of the North, West and South Atlantic seacoast cities.

CARTER COURT REVERSED.

Frankfort, Ky., Sept. 30.—Reversal of judgment of the Carter Circuit Court and conviction of manslaughter for killing James Case last April was secured in the Court of Appeals today by Berck and Robert Biggs, brothers. Case, their tenant, was stabbed to death on the road home from Grayson during a fight among them. The Biggs brothers pleaded self-defense. The judgment was reversed for error.

PIKE COUNTY NEWS

BOWLING APPOINTED STATE MOOSE LEADER.

At the State Convention of the Progressive party held in Louisville last Friday Hon. J. M. Bowling, for many years a practicing attorney at the Pikeville bar, and a leader in Eastern Kentucky, was chosen as the State Manager of the Moose campaign in Kentucky, and will have his office and headquarters in Louisville. H. M. Hoskins, Moose candidate for Congress from this district, was also present at the convention, and he and Judge Bowling were among the delegates who went to Indianapolis to hear Col. Roosevelt's address last Saturday. The delegation made a strong effort to secure Col. Roosevelt's promise to speak in Kentucky some time in the month of October, but the Colonel said that during that month his time was completely taken in New York, and if he could possibly make arrangements, he would be glad to pay a brief visit to the state of Kentucky.

The new Moose campaign manager is not without a record. At one time he had complete charge of the Republican campaign work in Pike county, and he was identified with that party for several years. He has also been recognized as a leader in state politics.

RED MEN CONVENTION.

Pike, Floyd and Johnson county members of the Order of Red Men met at Pikeville in annual convention last Saturday. There are a number of Red Men lodges in this county, and all these were well represented. Almost the entire membership of the Hellier lodge was present, and State Grand Sachem, Dr. Keller, of Louisville, was present and presided at the convention. An evening session was also held, and a number of interesting speeches were made.

MRS. LANGLEY ENTERTAINS.

Mrs. John W. Langley entertained several friends to a delightful six o'clock dinner at her Riverview home across the river last Saturday evening. Among the number present were Judge and Mrs. R. L. Miller, Mr. and Mrs. Ed Holley and J. F. Prindle. The hostess and guests spent the evening playing Rook. The ladies opposed the gentlemen and walked away with the honors in several games.

VARNY FREED.

Anderson Varny, who was arraigned before the Pike Circuit Court last Wednesday on the charge of having murdered his cousin, James May, on Pond Creek last spring, was freed by the jury Thursday morning, the verdict being a complete acquittal. Varny was the only witness to the tragedy.

HUNG JURY.

The trial of Rudolph Kinney held here last week in which he was charged with the murder of his cousin, Cowan Kinney, at Shelbyana, a few weeks ago, resulted in a hung jury last Monday morning. From the evidence it appeared that Rudolph Kinney accidentally shot his cousin Kinney during a fight with a third party. The jury deliberated on the verdict Saturday and Sunday. The prisoner was released on bond.

JURY GETS STRONG INSTRUCTIONS.

The grand jury in session with the Pike Circuit Court was called into court last Monday by Judge J. M. Robertson to receive instructions regarding the probe into charges of vote selling. The Judge stated to the jury that he had well grounded fears that the ends of justice were being hindered by persons tampering with witnesses who were expected to testify in the probe. The jury was instructed to ascertain the names of the tamperers, together with all information in regard to such conduct and to make a special delivery of it to the court, no matter whether Democrat or Republican was concerned. The court severely criticized what he termed an attack upon justice, and said that justice would finally triumph and that the misdoers should be punished despite the efforts of many to stifle the work of the court in getting to the bottom of the crime of vote selling.

The court also called the attention of the jury to information of bootlegging operations on the eastern border of the county along the West Virginia frontier, as contained in an article published in the Courier-Journal of date Sept. 27, and said that the fact or falsehood of the article should be accurately established by the jury during the course of the present investigation. The article was written from Frankfort, and stated that a letter had been sent from Mr. Fred B. Blue, prohibition officer of West Virginia, at Charleston, and addressed to Judge Robertson of this court, complaining that the illicit sale of liquor was being carried on in Pike county, and stating that some of the county officials here were well advised of the situation, but failed to take steps to prevent it. Judge Robertson stated to the jury that all the liquor in Pike county that he is advised of belongs to Robt. Buskirk, of Matewan, W. Va., and was stored at different places along the eastern border of this county just before West Virginia went dry, and that Buskirk hopes to sell it across the Tug river to West Virginia patrons as soon as he can obtain a Kentucky license to do so. Sheriff Geo. M. Mullins and County Judge Stallard went to the border several weeks ago specially to investigate West Virginia reports of bootlegging, and after a most exhaustive search they returned to Pikeville having found nothing to justify such a rumor. But to provide against a contingency, the county, under the direction of these two able officers, is maintaining special deputies to keep a constant watch along the shore of the Tug river; and if any bootlegging operations develop in that neighborhood, the authorities here are certain to learn of it.

Judge Robertson stated during his instructions to the jury that he had not received any such letter as the Courier-Journal speaks of from Mr. Blue or anyone else.

CUPID IN PIKE.

A pretty wedding was that of Miss Olla Hinzman, the 17-year-old daughter of C. & O. Superintendent John Hinzman, to S. R. Preston, 23, of Ash-

land, at the home of the bride's parents on Kentucky avenue Monday evening. The wedding was an informal one, and only a few intimate friends were present, including James Renfro, Rev. I. N. Fannin performed the ceremony. Mr. Preston is a C. & O. fireman, and the happy couple will make their home in Pikeville.

Other Couples.

Other couples, as appears from the records in the office of the Clerk of the Pike County Court, are as follows: W. E. Morris, 23, to Miss Winifred Adkins, 19, Yearker, Ky.

Arthur Bostic, 23, to Miss Anna Varny, 15, Simmers, Ky.

B. F. Keathley, 26, to Miss Adda Adkins, 22, Pikeville.

Clarence Harris, 23, to Miss Iley Blackburn, 15, Raccoon Creek.

Anthony Blackburn, 21, to Miss Louisa Coney, 18, Fichttrap.

W. R. Justice, 54, to Louisa C. Ramsey, 44, Millard, Ky.

IMPROVEMENTS WORTH WHILE.

What's the matter with Pikeville? asked a club of Louisville business men here recently. Nothing. The county and city are making their record number of improvements this year, that's all. About February 1st the new public and high school building will be finished, which will be a marvel of architecture, and by the first of the year the Pikeville jail, one of the most perfect and safe prisons in the state, will be ready for use, also the jailer's residence, which is a handsome two-story brick structure on the cottage design, and it has been unofficially stated by a prominent county official that many improvements will be added to the court house as soon as the present work is done, which will make it one of the finest public buildings in Eastern Kentucky. To all of these improvements will soon be added a government building, for which Mr. Langley is now making arrangements.

New sidewalks are being put down and old ones repaired. Many new houses of permanent quality and great value are also being built, and upon every hand is to be found improvement and, taken as a whole, there could not be a more satisfactory community in which to live than in Pike, the largest county in the state, or a better business location than here.

DIPHTHERIA PATIENTS.

Little Henry Scott, who has been down with diphtheria for several days, is much better, and will recover in a few days. Alden and Ruth, infant children of Mr. and Mrs. L. L. Stone, are also victims of this ailment. They also are doing nicely, and will be well in a few days.

NEW MINE OPERATION.

Reliable information is to the effect that Geo. W. Gray, of Paintsville, who has eastern capital associated with him, will in the immediate future put in a large coal operation near Coal Run station, four miles below Pikeville. Just when the operation will be opened up is not known, but it is safe to say within the next six months. There are many good investment opportunities in Pike county, and foreign capital is not slow to take advantage of them when once they are understood.

UNDERGOES OPERATION.

Mr. and Mrs. F. T. Hatcher are in Louisville this week. Mrs. Hatcher will undergo an operation while there.

REV. DUGGER REMOVED.

Rev. and Mrs. C. A. Dugger and family will leave Pikeville in two weeks for their new home in Manchester, Ky., where Mr. Dugger has accepted the pastorate of the Presbyterian Church of that city.

Mr. Dugger has most creditably supplied the Presbyterian Church at Pikeville during the past year, and his many friends regret to lose him and his estimable family from our city, and he will long be remembered as a leader in church affairs after he has taken his departure. Before he departs those of his friends who have felt an interest in his work should in person extend their wishes for the future welfare of both Mr. Dugger and his family.

CATLETTSBURG AND BOYD COUNTY NEWS.

Mr. L. C. Hazlett, a prosperous farmer of Ellington's Bear Creek, is in town on a short business mission. According to expert judges Mr. Hazlett has the second best farm in the county and one of the largest and best arranged stock barns in Eastern Kentucky. To this he is talking of adding a large silo.

Attorney W. H. Flanery is at Frankfort on legal business.

The city of Catlettsburg will reconstruct the upper end of Louisa street as soon as they can secure the services of the county's steam roller, which is now in Logan, W. Va. One word of advice to our Catlettsburg councilmen: This roadway was built only three years ago, and should not have worn out so soon. So you see there is something wrong with the construction somewhere. So before you proceed study the cause and remedy it. Only a few hundred yards away, in the year 1881, was a roadway constructed that lasted for nineteen years without a cent spent for maintenance, which accommodated probably 50 per cent more traffic than this Louisa road now does.

Mr. John Shortridge, of Normal, was in town on Sunday calling up some friends.

William Hazlett, of Jack's Fork, probably the best horticulturist in the county, was in town Friday disposing of a load of pears. They were fine and showed high cultivation.

Prof. G. J. Rucker is industriously arranging for an educational meeting to be held in the court house on the 30th inst. Quite a number of the most prominent teachers of the state will be present. Much interest is anticipated.

Thos. S. Garland, ex-Mayor and a retired merchant of Huntington, with his wife passed through here today en route to Ashland to call upon Mrs. Garland's aunt, Mrs. William Eba. Mrs. Eba is now in her ninety-third year. She is totally blind but her mind is wholly undisturbed. Mrs. Eba enjoys a distinction that no other living lady of America does. In 1841 President Harrison died and his remains were conveyed by special convey down the Ohio river to Indiana for burial. Mrs. Eba was a passenger from the "Month of Sandy" to Aberdeen, O., on this steamer. Although this was 73 years ago Mrs. Eba talks freely about the "dignitaries" on board, and how the steamboat was decorated, etc., as though it was but a few weeks ago.

President Harrison was our ninth President and elected by the White party, as there was no Progressive party at that time—no Progressives say there is none now. This may be true according to their version, but they must admit that they turned the earth with a gang plow while they did have them in harness.

Eastern Kentucky's cattle king, Geo. W. Calvin, has mechanics at work adding another silo to his barn on his farm at Cannonsburg. George is not only a great cattle buyer, but is an up-to-date farmer in anything that pertains to stock raising.

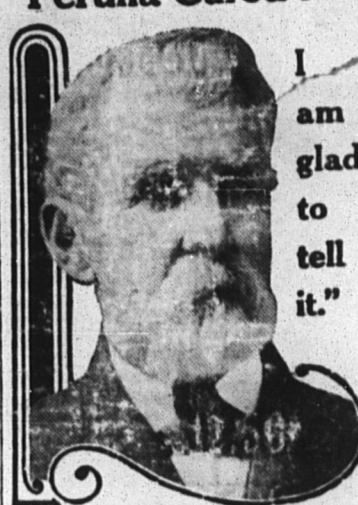

Squire John Arthur, of Potomac, was in town on Saturday mingling with his many friends. The Squire is a good roads enthusiast, but he says his section is not getting what they were promised. Other sections are making the same claims.

L. E. Vessie and daughter, with the Misses Jones, were motoring on our streets on Sunday. They drove on to Huntington.

We are sorry to have to record the death of Capt. William Kouns. Capt. Kouns was a retired business man of Ashland. He conducted a livery there for many years, and was captain and principal owner of the ferry Wemona for several years. By his careful business he amassed quite an estate, and reports have it that his last will and testament remembered in a very substantial way the superannuated preachers fund of the Western Virginia Conference. He was laid to rest in Ashland's beautiful city of the dead on Sunday afternoon.

The Boyd county fiscal court ordered the new road from 29th street, Ashland to South Ashland opened, and quite a bit of work has already been done on the same. Thus ends a long drawn out fight.

"Peruna Cured Me

MR. ROBERT FOWLER, Of Okarche, Oklahoma.

Mr. Robert Fowler, Okarche, Oklahoma, writes:

"To any sufferer of catarrh of the stomach, I am glad to tell my friends of sufferers of catarrh that seventeen years ago I was past work of any kind, due to stomach troubles. I tried almost every known remedy without any results.

"Finally I tried Peruna, and am happy to say I was benefited by the first bottle, and after using a full treatment I was entirely cured.

"I am now seventy years old, and am in good health, due to always having Peruna at my command. I would not think of going away from home for any length of time without taking a bottle of Peruna along for emergency.

"You are at liberty to use my picture and testimony if you think it will help any one who has stomach trouble."
